

BMFA BUCKMINSTER SWAPMEET SUN 15th APRIL, MIKE BEACH MODELS.

If you plan to attend the next BMFA Swapmeet at Buckminster on Sunday 15th April (recommended), be sure to look out for the display of some of Mike Beach's historic models which will be in the upper reception area of the main building, which will be in place for some weeks from this date.

Mike's remaining aeromodelling estate was recently donated to the BMFA so that important items could be retained for display in the museum area which is eventually planned.

Be sure to also look out for some of his vintage control line models not required for the museum which are for sale, with the proceeds to go towards the construction of the hard control line circle at Buckminster and particularly for enabling its use for tethered cars, in which he had a long standing interest. These will be in the main Swapmeet building area, in a room between the main arena and the toilet facilities to the rear of the building. It's a great cause, with a chance to own a model from one of SAM's founding members, so don't miss this chance.
