

# Webmasters report 2019

I am pleased to report that the SAM35 website has been up 100% of the time over the last 12 months and has continued to show its usage across the world. There have been no major changes this year and the focus has been on stability and maintaining the updates so that it can be used as the go-to place for any queries.

Looking at the stats you can see the number of hits at the site shows a peak of 80,000 a month in May this year. This is broadly similar to what we had last year and shows that the OW Mayfly and the F/F NATs generate the same peak every year. I also attach the breakdown by the top 25 countries for the month of May to give you a global view of visitors. For the avoidance of doubt the hit rate on these graphs is the number of times a mouse click is made navigating around our site. Again broadly similar to last year. So no growth in use but maintaining a steady position.

As always please send me your suggestions and ideas so that the site continues to reflect the requirements of the membership.

Thanks for all the support from the membership and the committee.
