

Bucky Power Strugglers

Following a chat with Ian Lever a few flyers at OW and an ongoing discussion with Manny Williamson I have come up with a plan! This is to have vintage RC flying at Buckminster on the first Monday and Tuesday of each month from April to October each year. Manny thinks our old timer models won't interfere with the Free Flight activities on the Mondays. The first and last one for this year will be the 4th and 5th October. As it happens the weekend before is a model makers festival which may be worth attending as well. It is not intended that this is a formal event but a gathering of like minded vintage flyers to chat and fly our models. I hope that a nucleus is established so we get a group of regular flyers and make it our home like Biggleswade common did for Sam 35 originally. We can but try.

The format will be simple. We are there to fly and chat, no competitions just a gathering of like minded souls.

I've started a WhatsApp group to communicate with you all. If you have any sort of smart phone you can download the app. It's free and encrypted end to end so no one outside of our group can see our posts. All I need is your name and mobile number. I add these to the list of members. Then the group will appear on your app. You can then see every post and contribute. You can email me on acbrough@hotmail.com or message me 07472 079777 and I'll add you to the list.
